

## **WHITE PAPER**

## **RURAL FLORIDA: OPPORTUNITIES FOR THE FUTURE**

**Development of the Rural Florida paper is part of a larger initiative on rural concerns for Florida’s future as funded by the Doris Duke Charitable Foundation. The Florida land use coordinator for the project is 1000 Friends of Florida, in conjunction with its Florida partners: the Nature Conservancy; Tall Timbers Research Station, Red Hills Conservation Program; the Trust for Public Land; and the American Planning Association, Florida Chapter. As part of the initiative, Florida APA has prepared this paper and helped organize two public workshops on the subject. The paper is being disseminated by 1000 Friends and will be utilized as a “living document” updated over time.**
